

CTPC Instructor Refresher

Thoughts

I have been away from paddling for some time and need to validate my teaching skills. I have to complete an ACA Instructor update or have failed one and need remediation.

Prerequisites: *ACA or CTPC L1/L2 Teaching award in chosen craft.*

Next Step: *ACA Instructor Update*

Topics Covered

This class is often targeted to bolster known deficiencies. Evaluation will take place during the day to find and improve areas that are incorrect or incomplete at the required Instructor level.

Details and Requirements

This 1 day program covers instructor commitments that are newly developed since last training/evaluation. It is intended for the continuing ACA Instructor that must complete a required 4-year update, or for the returning counselor who needs or wants to refresh their teaching and leadership skills. This class will take place on the water or on shore as needed.

Basic Equipment On-water training facilities (pond, lake or slow river) with craft, paddling and safety equipment (PFD, etc.) and support/rescue gear for the chosen craft: kayak, canoe or SUP. Review separate program descriptions for further details.

Personal Equipment students should be equipped with note-taking materials for classroom sessions and appropriate on-water gear for practical days. On-water gear includes: quick-dry, clothing suitable for immersion that offers sun protection, water shoes, etc. Other personal items: see individual descriptions.

Special Requirements

This is a fun, moderately paced day which proceeds as directed by the student and/or evaluation of the Instructor-Trainer. Candidates should come prepared with self-evaluation and look forward to finding and correcting/improving their paddling, modeling, teaching and leadership skills.

Costs and Fees

Class Fee	Boat and Gear Rental	CTPC Participation Card
